Computer Aided Design (CAD) guides our laser cutters to produce our unique interlocking tabs joinery system adding strength whilst removing weight.

**LIGHT WEIGHT BREATHABLE CANVAS**  
We save 33% off the weight of our canvas panels by choosing Australian-made 'Dyna-Proof' breathable canvas. Ultra-durable, lightweight, ready for the harshest of outdoors conditions.

**LITHIUM BATTERY TECHNOLOGY**  
We use only lithium batteries which are 75% lighter and more durable than AGM lead acid equivalents. Allows you to go further off-grid, for longer, but still in touch and in comfort.

**WATERLESS TOILET**  
8kgs maximum weight. Saves 110kg weight over maceration toilet system.

### VALUABLE WATER

**WATER 3 WAYS**  
Twin tanks, single filler, marine pumps, plus front stored Jerry cans give you greatest flexibility and capacity.

**STRAIGHT FROM STREAM**  
With our innovative visi-flow special option, bypass the water tanks and pump directly from any water source. Hot water system uses heat exchanger allowing for varying water temperatures.

**WATERLESS TOILET**
